## 13. DISPOSAL CONSIDERATIONS

### Methods of disposal:

### CONTAINER DISPOSAL:

#### Non-refillable containers 20 litres or less:

Ensure container is completely empty. Rinse empty container with an oil-based product such as kerosene, then triple rinse with soap and water. Recycle through the Agrecovery™ programme. If this is not possible, bury in landfill.

Do not dispose of this product or equipment cleaning kerosene down drains or sewers.

Dispose of equipment cleaning kerosene onto ground away from susceptible crops and plants.

**PRODUCT DISPOSAL:** Ensure unwanted product is used by another operator strictly in accordance with label directions.

#### Refillable containers 20 litres or larger:

Refill the containers with X-TREE® Wet & Dry herbicide only. Do not reuse this container for any other purpose. Cleaning before refilling is not recommended as any water will cause an emulsion to form when refilled. Keep sealed after emptying to prevent rain from entering.
