the chemical and restrictions on use

Recommended use of A specially formulated blend of paraffinic oil, fatty acid penetrants and surfactant to enhance wetting, spreading and uptake of systemic herbicides; with other herbicides and agricultural chemicals to improve wetting and spreading, and as an aid for modifying spray droplet quality and to preserve

droplet survival.

Other Information This SDS describes, to the best of our knowledge, the properties of the

concentrated product. The physical properties and some of the assessments do not apply to the properties of the product once it has been diluted for application. Acute health effects of the diluted product are likely to be

much less severe.

2. Hazard Identification

GHS classification of NON-DANGEROUS GOODS.

the

substance/mixture

6.1D acute toxicant, 6.3A skin irritant, 6.4A eye irritant **Other Information**

TOXICITY

Harmful-may be harmful if swallowed, inhaled or absorbed through the skin.

May cause skin and eye irritation.

3. Composition/information on ingredients

Ingredients	Name CAS	Proportion
	Paraffinic Mineral Oil 8020-83	-5 471 g/L
	fatty alcohol ethoxylate -	<15%
	Alkyl phenol ethoxylate -	<10%
	Ingredients determined - to be non-hazardous	To volume

4. First-aid measures

For advice contact the National Poisons Centre 0800 POISON (0800 764 766) or a First Aid Measures

doctor immediately. Begin artificial respiration if the victim is not breathing. Use mouth-to-nose rather than mouth-to mouth. Obtain medical

attention.

Remove patient to fresh air. Lay down and keep warm and rested. If breathing Inhalation

is shallow or has stopped ensure airway is clear and apply resuscitation.

Seek medical assistance immediately. Rinse mouth thoroughly with water. Ingestion

Never give anything by mouth to an unconscious person. If swallowed do NOT

induce vomiting. For advice, contact the National Poisons Centre (0800 764

766). Seek medical assistance immediately.

Immediately flush body and clothes with large amounts of water. Remove Skin

contaminated clothing and footwear. Wash affected areas with soap and water.

If a large area is affected seek medical assistance.

Flush eyes with plenty of water for 15 minutes holding the eyelids open if Eve contact neccessary. Remove contact lenses if present and easy to do. Seek medical

assistance.

First Aid Facilities Facilities storing or utilizing this material should be equipped with an

eyewash facility and safety shower.

Treat symptomatically. If vomiting occurs, mineral oil and surfactants **Advice to Doctor**

present may cause pulmonary pneumonitis.

Pulmonary oedema is possible and may be delayed.

The symptoms of lung oedema often do not become manifest until a few hours

have passed; they are aggravated by physical effort. Rest and medical

observation is therefore essential.

5. Fire-fighting measures

Suitable

Water fog, foam, carbon dioxide or dry chemical.

extinguishing media

Hazards from

If involved in a major fire, could evolve oxides of carbon or nitrogen.

Combustion **Products**

Special Protective

Equipment for fire

Other Information

fighters

Full protective clothing and self-contained breathing apparatus.

Specific Methods

Keep up wind.

Keep containers cool with water spray.

Location Certificate: Not applicable Hazardous Atmosphere Zone: Not applicable

Number of Fire Extinguishers: Not applicable

6. Accidental release measures

Spills & Disposal

Wear protective clothing. Clear area of unprotected personnel. and absorb with sand, soil or absorbent granules. If spill does enter waterways contact the local authority. Collect in an appropriate sealable container for disposal in an approved landfill.

Do not allow washings to reach sewage or effluent systems.

Wash area with water and detergent and absorb with inert material. Dispose

of waste safely in an approved landfill.

For appropriate personal protective equipment (PPE), refer Section 8. **Personal Protection**

Environmental **Precautions**

Prevent from entering drains, waterways or sewers.

7. Handling and storage

Precautions for Safe Handling

Avoid skin and eye contact and inhalation of spray mist.

CERTIFIED HANDLER: Is not required.

TRACKING: Is not required RECORD KEEPING: Not applicable Keep out of reach of children.

Conditions for safe storage, including any incompatibilities

Store in original container tightly closed in a dry cool area away from

foodstuffs. Do not store for prolonged periods in direct sunlight. Storage must be in accordance with NZS8409 Management of Agrichemicals.

Stores containing 1,000L of BONZA require secondary containment and are subject to signage, and more than 1,000L require emergency response plans.

Other Information Always read the label and any attached leaflet before use.

Aggregate Storage Volume Thresholds:

When stored with substances of the same hazard classification the aggregate quantity must be considered. For full details refer to the current NZS8409

Management of Agrichemicals and the HSNO Regulations.

8. Exposure controls/personal protection

Occupational exposure limit values No exposure limits (WES, TEL or EEL's) have been specifically assigned for this product.

Appropriate engineering controls Handle in well ventilated areas, generally natural ventilation is adequate.

Personal Protective Equipment

When opening the container, preparing spray and using the prepared spray wear safety goggles, or face shield, waterproof gloves,

buttoned to the neck and wrist, and boots.

Hygiene Measures Do not eat, drink or smoke while using.

Remove protective clothing and wash hands and face thoroughly before meals and after work. Wash protective clothing daily after work. Wash splashes

of concentrate from skin immediately.

9. Physical and chemical properties

Form Liquid

Appearance Amber liquid

Solubility in Water Disperses in water

Specific Gravity 0.875

Flammability Combustible

10. Stability and reactivity

Chemical Stability Stable under normal conditions of handling and storage.

Hazardous polymerisation will not occur.

Polymerization

11. Toxicological Information

Toxicology No specific toxicological data is available for this product. Data below is

Dermal

Acute Toxicity - No data available.

Inhalation

incidental to normal handling procedures and use are not expected to cause

injury.

If aspirated into the lung, e.g. from vomiting, the presence of mineral oil

and nonionic surfactants may result in chemical pneumonitis or other lung

damage.

Inhalation Not a likely route of exposure when handling the concentrate.

Skin Prolonged contact with the concentrate can cause defatting of the skin and may

result in dermatitis.

Eye The concentrate will cause irritation and possible damage unless washed off

immediately.

Chronic Effects No information available, no chronic effects expected.

Serious eye Eye irritant.

damage/irritation

Skin Mild skin irritant.

corrosion/irritation
