About the Orient Gene Rapid Test

The Orient Gene COVID-19 Rapid Test antigen kit is a rapid diagnosis product that offers great reliability, and allows immediate detection of coronavirus antibodies 24-48 hours after infection with a nasal sample.

This new Rapid Test is produced by Orient Gene Biotech, one of the largest Vitro test manufacturers in the world, is a CE certified diagnostic product, and has been recognized as an IVD medical device. The Orient Gene Rapid Test kit helps quickly diagnose SARS-CoV-2 infections in just 15 minutes.

These test kits are intended for self-testing purposes by untrained individuals outside of laboratory or clinical settings such as in your home. You can use this test if you have symptoms of COVID-19 infection, particularly within the first 7 days following the start of symptoms.
