MicroMag - powder

A micro-nutrient cocktail providing essential trace nutrients to plants over a complete growing season.

For quick supply of Mg, Ca, S and trace nutrients.

MicroMag powder is a micro-nutrient cocktail providing essential trace nutrients to plants over a complete growing season.

It provides a quick supply of Mg, Ca, S and trace nutrients (Fe, Mn, Zn, Cu, B & Mo).

Main benefits

- Powder formulation provides an immediate supply of trace nutrients for seed raising mixes and crops in small containers.
- Contains Mg, Ca & S for good nutrient balance when used in conjunction with NPK fertilisers.
- Provides all necessary trace nutrients required by plants, including 12% Iron.
