

The perfect potting mix partners

nutricote® & Triabon®

Triabon®

"The fastest way to fertilise slowly."

Triabon® contains a cutting edge slow-release fertiliser which makes it ideal for potted plants and potting media.

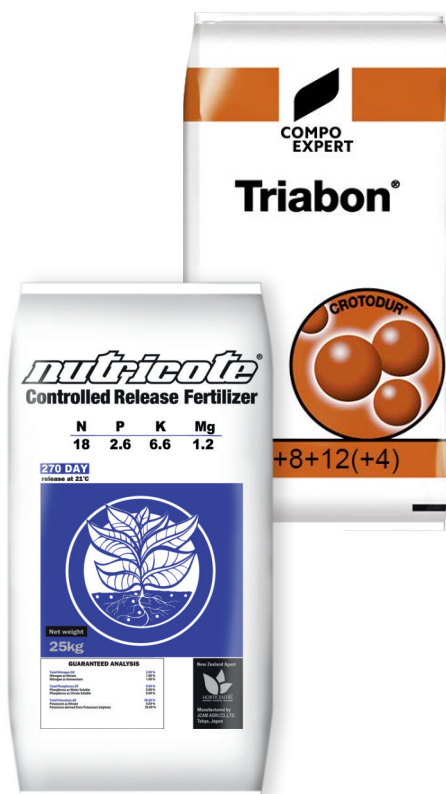

- Quick "green up"
- 3-4 months feeding
- Versatile uses
- Works even in cool conditions.

nutricote®

"A controlled release fertiliser that really lasts as long as it claims."

Unlike many fertilisers, Nutricote® releases its nutrients gradually and predictably.

- Unique coating
- Release synchronised with plant growth
- Available in a variety of formulations and release periods.
