

Technical Information

CarboMang

Description :

A liquid water-soluble organic manganese, molybdenum plus boron complex, which can be applied as a foliar spray or soil treatment.

Physical & Chemical Properties:

Analysis:	(% w/v):
Manganese (Mn):	6.70
Boron (B):	0.55
Molybdenum (Mo):	0.61
Appearance :	Dark liquid
Odour :	Fruity
Solubility:	Water soluble
Specific gravity:	1.21 - 1.23
PH (1% w/v solution):	2.0-3.0
