

1: Identification of the Substance and Supplier

Product Name CHLOR-P 480EC

Recommended Use Insecticide (Organophosphorus)

Suppliers Details Orion AgriScience Ltd

Unit 1, 15 Sir Gil Simpson Drive, Harewood, Christchurch, 8053

PO Box 39 071, Harewood, Christchurch, 8545

 Web Address
 www.orionagriscience.co.nz

Date of Issue/Revision October 2020

2: Hazards Identification

Hazard Pictograms

Signal Words

Hazard Classes:

3.1D Flammable Liquid (Cat. 4)

6.1C Acute Toxicity (Oral Cat. 3)

6.1C Acute Toxicity (Dermal Cat. 3)

6.1D Acute Toxicity (Inhalation 4)

6.1E Aspiration Hazard (Cat. 1)

6.3B Skin Irritation (Cat. 3)

6.4A Eye Irritation (Cat. 2)

6.8B Reproductive Toxicity (Cat. 2)

6.9A Target Organ Systemic Toxicity (Oral Cat. 1)

9.1A Aquatic Ecotoxicity (Cat. 1)

9.2B Soil Ecotoxicity

9.3A Terrestrial Vertebrate Ecotoxicity

9.4A Terrestrial Invertebrate Ecotoxicity

Precautionary Statements:

Prevention

Danger

Hazard Statements:

H227 Combustible Liquid

H301 Toxic if swallowed

H311 Toxic in contact with skin

H332 Harmful if inhaled

H305 May be harmful if swallowed and enters airways

H316 Causes mild skin irritation

H319 Causes serious eye irritation

H361 Suspected of damaging fertility or the unborn child

H372 Causes damage to organs through prolonged or repeated exposure

H410 Very toxic to aquatic life with long lasting effects

Toxic to the soil environment

Very toxic to terrestrial vertebrates

Very toxic to terrestrial invertebrates

P101 If medical advice is needed, have product container or label at hand

P102 Keep out of reach of children

P103 Read carefully and follow all instructions

P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources.

No smoking

P280 Wear protective gloves/protective clothing/eye protection/face protection

P264 Wash hands thoroughly after handling

P270 Do not eat, drink or smoke when using this product

P261 Avoid breathing dust/fume/gas/mist/vapours/spray

P271 Use only outdoors or in a well ventilated area

P203 Obtain, read and follow all safety instructions before use

P280 Wear protective gloves/protective clothing/eye protection/face protection

P260 Do not breathe dust/fume/gas/mist/vapours/spray

Response

Read label before use. Obtain special instructions before use. Do not use until all safety precautions have been read and understood. Avoid contact with eyes and skin. Do not breathe in the vapour or spray mist. When mixing or applying, wear personal protection as described in section 8. Take all reasonable steps to ensure that this product does not cause any significant adverse effects to the environment beyond the application area. Do not apply directly into or onto water. Do not apply this substance to plants if bees are foraging, or the plants are in flower or part flower, and are likely to be visited by non-target invertebrate pollinators (including bees)

P370+P378 In case of fire use water spray, foam, dry chemical or C02 to extinguish

P301+P316 IF SWALLOWED: Get emergency medical help immediately

P321 Specific treatment (Refer section 4)

P330 Rinse mouth

P302+P352 IF ON SKIN: Wash with plenty of water

P316 Get emergency medical help immediately

P361+P364 Take off immediately all contaminated clothing and wash it before reuse

P304+P340 IF INHALED: Move person to fresh air and keep comfortable for breathing

P317 Get medical help

P301+P316 IF SWALLOWED: Get emergency medical help immediately

P331 Do NOT induce vomiting

P332+P317 If skin irritation occurs get medical advice

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove

contact lenses, if present and easy to do so. Continue rinsing

P337+P317 If eye irritation persists: Get medical help

P318 If exposed or concerned, get medical advice

P319 Get medical help if you feel unwell

P391 Collect spillage

First aid measures described in section 4. Contain and collect spillage for disposal. In an emergency call 111, Police or Fire Brigade. For specialist advice in an emergency only,

call 0800 CHEMCALL (0800 243 6225) (24 hrs).

P403 Store in a well ventilated place

P405 Store locked up

Keep cool

Disposal P501 Dispose of contents by using it in accordance with this label. Dispose of the

container via AgRecovery after triple rinsing (use the rinsate for spraying).

3: Composition/ Information on Ingredients

IngredientCAS NoContent (% w/v)Chlorpyrifos (active ingredient)2921-88-248

Other ingredients Proprietary Remainder

4: First Aid Measures

Storage

If medical advice is needed, have product container or label at hand. If exposed or concerned, get medical advice. For advice call the National Poisons Centre or a Doctor

Ingestion: Rinse mouth. Do not induce vomiting. Seek medical advice immediately

Skin Contact: Wash with plenty of soap and water. Seek medical advice immediately

Eye Contact: Rinse cautiously with water for several minutes. Remove contact lenses, if easy to do so. Continue rinsing.

Seek medical advice if irritation persists.

Page: 2 of 7

Inhalation: Remove to fresh air and keep at rest in a position comfortable for breathing. Seek medical advice

immediately

Workplace Facilities: Hand wash facility. Eye wash facility

Advice to Doctor: Chlorpyrifos is an organophosphorus insecticide, which inhibits cholinesterase activity, and interferes in

nerve pulse transmission. Onset of symptoms may be delayed for several hours. Atropine is the specific antidote and may be given immediately by qualified staff, at a level of 2 - 5mg (intravenously or intramuscularly), every 20 minutes until atropinisation occurs. Considerable amounts of atropine may be necessary. Atropine must NOT be given to cyanosed patients; administer oxygen first. Do NOT use opiates or barbiturates. If convulsions occur, administer diazepam (10mg intravenously). Take venous blood sample for determination of blood cholinesterase activity. Cholinesterase reactivators (Pralidoxime) should, if possible, be given at the same time as atropine. They are not effective after 24 hours post exposure and are not substitutes for atropine. Pralidoxime should be administered at: Mild poisoning: 1g in 2 - 3ml water (intramuscularly), Severe poisoning: 2g in 30ml water (intravenously). Following ingestion, adsorbents

such as charcoal may be of value. If gastric lavage or emesis is considered necessary, inhalation of hydrocarbons must be prevented. Hydrocarbon aspiration may complicate poisonings involving ingestion

National Poison Centre 0800 POISON (0800 764 766) (24 hours)

Symptoms of Exposure which could occur if this material is not handled in accordance with instructions:

Ingestion: Excessive sweating, salivation, headache, weakness, faintness, nausea, vomiting, diarrhoea, small pupils,

blurred vision, convulsions, muscle twitching. The solvent in this product may cause bronchopneumonia or

pulmonary oedema if aspirated into the lungs from ingestion or from vomiting

Skin Contact: Irritation. Can be absorbed via the skin (see 'Ingestion' above).

Eye Contact: Irritation. May cause constriction of the pupil.

Inhalation: Irritation. Can be absorbed via the lungs (see 'Ingestion' above).

Note: Symptoms may be delayed for up to 24 hours or more following exposure

5: Fire-Fighting Measures

Fire/Explosion Hazard Flammable liquid and vapour

HAZCHEM Code 2X ERP Guide No 35

Extinguishing Media Water spray, foam, dry chemical or C02. Avoid water jet.

Fire Fighting Instructions During a fire, toxic fumes may be emitted. Wear self-contained breathing apparatus. Contain runoff.

Specific Hazards Arising from Fire No data available

6: Accidental Release Measures

Personal Precautions Caution: Floors may be slippery if wet. Eliminate all ignition sources and naked lights. Use non-sparking

equipment. Leave and/or avoid entering confined spaces. Wear personal protective clothing and equipment as described in section 8. Respiratory protection (with organic vapour cartridge) required for any spill other

than minor. Exclude non-essential people from the area.

Environmental Precautions Prevent further spillage or leakage. Prevent material from entering drains, waterways, etc.

Clean UpAbsorb spillage with inert material such as spill kit, sand or cat litter. Collect and place in a sealable

container for disposal. Wash down affected area with water and detergent. Absorb and collect washings for

disposal. Dispose of safely to a suitable landfill.

7: Handling and Storage

Storage: Keep out of reach of children. Store in the original tightly closed container in a cool, well ventilated, locked

and secure area.

Handling and Use: Refer to Prevention statements in section 2 above. Exclude people and animals from the application area,

both during application and for the duration of the REI.

REI 24 hours

Page: 3 of 7

8: Exposure Controls / Personal Protection

Tolerable Exposure Limit None established

Workplace Exposure Standards Chlorpyrifos 0.2 mg/m3 (8hr TWA)

Engineering Controls Select spray application equipment to minimize exposure to operator and bystanders

Biological Monitoring Regular users should undergo biological monitoring of cholinesterase activity. Consult with your GP or

Occupational Health Adviser.

Personal Protection:

Eye Safety glasses/goggles (or full face respirator incorporating visor) when mixing or applying.

Skin Chemical resistant coveralls with hood tightly fitting at head, wrists and ankles (e.g., Tychem F suit),

chemical resistant boots and chemical resistant gloves (barrier multilayer, nitrile, neoprene, butyl).

RespiratoryNot required where spray mist is not inhaled. Otherwise, respirator (organic vapour and particulate matter)

is required.

Clean protective equipment after use

9: Physical and Chemical Properties

Appearance Clear Amber Liquid

Odour Solvent like
Odour Threshold No data available

pH Not applicable

Melting Point/Freezing PointNo data availableBoiling PointNo data available

Flash Point <94°C (closed cup method)

Flammability Flammable

Upper/Lower Flammability Limits No data available. May form explosive mixture in enclosed or poorly ventilated areas

Vapour PressureNo data availableVapour Density>1 (heavier than air)Relative Density1.15 g/mL (approx.)

Solubility in Water Emulsifiable

Partition Coefficient: n-octanol/water See section 12

Auto ignition Temperature No data available

Decomposition Temperature No data available

Kinematic Viscosity No data available

10: Stability and Reactivity

Stability Stable under normal conditions

Hazardous ReactionsNone ExpectedIncompatibilityNone KnownHazardous Decomposition ProductsNone Known

11: Toxicological Information

This section describes effects which could occur if this material is not handled in accordance with this data sheet and label instructions

Acute Oral Toxicity

Acute Dermal Toxicity

Acute Inhalation Toxicity

Skin Irritant/Corrosive

Eye Irritant/Corrosive

Sensitisation Effects

Mutagenic Effects

LD50 > 200 mg/kg

LD50 > 1 mg/L

Skin Irritant

Eye Irritant

Eye Irritant

None

None

Page: 4 of 7

Carcinogenic Effects Non-

Reproductive Effects Suspected of damaging fertility or the unborn child

Specific Organ Toxicity Chlorpyrifos interferes with cholinesterase, an enzyme essential for the correct functioning of the nervous

system

12: Ecological Information

This section describes effects which could occur if this material is not handled in accordance with this data sheet and label instructions

The following information is presented in respect of the active ingredient:

Ecotoxicity

- Acute Oral LD50 (Chicken) 32 mg/kg
- LC50 (96 hr) (Rainbow trout) 0.007 mg/l
- LC50 (48 hr) (Daphnia) 1.7 μg/l
- Algae EC50 (72 hr) 0.48 mg/l
- Acute Oral LD50 (Bee) 0.36μg/bee

Persistence/degradability Biodegradable. DT50 (soil) 386 days (typical)

Bioaccumulative Potential Octanol-water partition coefficient LogP = 4.7 (high)

Soil Mobility Soil organic carbon water partitioning coefficient Koc = 5509 (non-mobile)

Environmental Exposure Limit: None established

13: Disposal Considerations

Product Dispose of product by using it in accordance with the label. Waste product should be disposed of to a

suitable landfill. For disposal of large quantities contact Orion AgriScience Ltd.

Container Dispose of to a suitable landfill or via AgRecovery. Do not burn. Do not use packaging for any other

purpose.

14: Transport Information

Dangerous Goods

UN Number 3018

Proper Shipping Name ORGANOPHOSPHORUS PESTICIDE, LIQUID, TOXIC (CHLORPYRIPHOS 48%)

Class 6
Subsidiary Class None

Packing Group

Additional Information MARINE POLLUTANT

MTQ (Non-Commercial) 250 litres

Passenger Service Vehicle Maximum quantity 1 litre

15 Regulatory Information

EPA Approval No HSR000224
ACVM Registration No P4852
Qualified Person Required
Certified Handler Not required

Workplace Only Yes

Tracking Not required

Record KeepingRequired. Mitigation measures employed to avoid spray drift and adverse effects beyond the boundary

must also be recorded

Site Requirements under EPA Notice

and HSWHS Regs:

- A hazardous substance location compliance certificate is required
- A hazardous area is not required
- Separation distances for class 3 and class 6 substances to protected places and public places is

Page: 5 of 7

	 applicable Fire extinguishers are required for more than 500 litres (2 fire extinguishers) Signage is required for more than 100 litres An emergency response plan is required for more than 100 litres Secondary containment is required for more than 100 litres Segregation from incompatible substances (classes 1, 2, 3.2, 4 and 5) is required
Application Rates	Maximum application rate 3.125 L/ha
Bee Safety	This product is toxic to bees. Do not apply this product to any plant or tree likely to be visited by bees (a) at the time of application; or, (b) immediately after application until spray has dried; or (c) in areas where bees are foraging.
Notification	For aerial application, written notification must be given to any persons likely to be affected – this includes occupiers and owners immediately neighbouring the application area. Notification must be made 2 working days – 4 weeks ahead of the application. Notification must include the location of the application area; the proposed date and approximate duration of the application; the steps to be taken by those notified to avoid exposure (e.g., staying indoors, closing windows and doors, moving washing indoors, disconnecting roof water supply, etc.); and the notifiers details (including name and phone number for immediate contact during application)
Additional Requirements	Refer to NZS 8409:2004 'Management of Agrichemicals', and relevant local and regional council plans

Acceptable Daily Exposure – A daily dose, received via any route, below which no adverse effects are
expected over a lifetime of exposure
Agricultural Compounds and Veterinary Medicines group of the Ministry of Primary Industries
GHS category
A concentration that should not be exceeded at any time during any part of the working day
A qualification issued by a Compliance Certifier to handle and use particularly toxic substances (6.1A and
6.1B)
Time (days) for 50% reduction in concentration
Concentration required to produce an effect in 50% of organisms
Maximum concentration limit of a substance in an environmental medium, e.g., water, soil.
Hazardous Property Controls Notice 2017
Dangerous Goods – Initial Emergency Response Guide SNZ HB 76:2008
Globally harmonized system of classification and labelling of chemicals
For locations storing hazard substances of certain classes above threshold quantities
A designated area designed for the presence of flammable substances - Refer AS/NZS 60079.10.1:2009
Emergency action code for emergency services
Health and Safety at Work (Hazardous Substances) Regulations 2017
Concentration that will kill 50% of organisms
Dose that will kill 50% or organisms
Maximum Transport Quantity. The maximum amount of dangerous goods that can be transported by road
by the user
Advance notice given to neighbours and other affected parties, of details of proposed application, and

form, as an indicator that a substance may bioaccumulate

The partition coefficient of a substance between n-octanol and water, used as the Logarithm base 10

other details as described

Page: 6 of 7

Octanol-Water Partition Coefficient

PDE Permitted Daily Exposure - A daily dose below which no adverse effects are expected over a lifetime of

exposure

Protected Place Residential properties, schools, hospitals, kindys, factories, shops, warehouses, etc., and other places where

people assemble

Public Place A place frequented by the public, including roads (does not include private property)

Qualified Person A requirement for the loader, contractor or person applying the product to hold a qualification such as a

GROWSAFE Certificate, Unit Standard 21563, etc.

Record Keeping Includes a spray diary or other record of application

REI Restricted Entry Interval – The length of time after application before entry into the treated area is

permitted without the use of protective equipment. For indoor environments, this time period commences

once ventilation after treatment begins.

Segregation Certain classes of substances must not be in contact with, and must be stored separately from, certain

other classes as specified in HSWHS Regs

Separation Distances The distances specified in Part 11 and Part 13 of HSWHS Regs between storage and/or use of hazardous

substances and protected places and/or public places

Signage Positioned at entrances to commercial premises providing information on the hazardous substances

present

Soil Adsorption Coefficient (Kd)

The ratio of the concentrations of a substance adsorbed onto a solid sorbent to that dissolved in a liquid

phase. The higher the value the less mobile the chemical is in soil

Soil Organic Carbon-Water

The ratio of the mass of a chemical that is adsorbed in the soil per unit mass of organic carbon in the soil.

Partitioning Coefficient (Koc)

The higher the value the less mobile the chemical is in soil

STEL

Short term exposure level – 15 minute time weighted average

·

Tolerable Exposure LimitMaximum concentration limit of a substance above which persons must not be exposed

Tracking For some particularly hazardous substances, a record must be kept of the transport, storage, sale and use

of the product

TWA Time weighted average calculated over an 8 hour working day

Workplace Exposure Standard An occupational health standard limiting concentrations of specified substances to which persons are

exposed

Workplace Only

A product that is restricted to a workplace only and under the supervision of a certified handler

Please Note

Users must ensure that the most up to date version of this safety data sheet is used.

This Safety Data Sheet summarises information on this product, and how to safely handle and use the product. Each user should familiarise themselves with the product label and Safety Data Sheet, and consider the information in the context of how the product will be handled and used, including in conjunction with other products. Orion AgriScience Ltd assumes no responsibility for the accuracy, completeness or suitability of this information. The user is responsible for determining the suitability and accuracy of this information for their particular purposes.

If clarification or further information is needed to ensure that an appropriate risk assessment can be made, the user should contact this company.
