

TECHNICAL SHEET

Magri-Trace

A Magnesium, Calcium and micro-nutrient cocktail providing essential trace nutrients to plants over a complete growing season.

Magri-Trace Green powder

for a quick response and plants in containers

Magri-Trace Red granular

for long term supply of Mg, Ca and trace nutrients

Nutrient analysis

Magnesium (Mg)	15%
Calcium (Ca)	3.2%
Iron (Fe)	15%
Manganese (Mn)	3%
Zinc (Zn)	4%
Copper (Cu)	3%
Boron (B)	0.6%
Molybdenum (Mo)	0.080%

25 kg bags

Magri-Trace is a Magnesium, Calcium and micro-nutrient cocktail providing essential trace nutrients to plants over a complete growing season.

Magri-Trace exists in two different formulations:

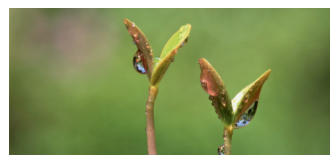

- Powder (Magri-Trace Green) for a quick response and for plants in small containers.
- Granular (Magri-Trace Red) for a long term supply of Mg, Ca and trace nutrients.

Main benefits

- Contains both Mg and Ca for good nutrient balance.
- Provides all necessary trace nutrients required by plants, including 15% Iron.
- Granular formulation provides a continuous supply of trace nutrients throughout the growing season.
- Powder formulation provides a quick response and enhances even blending in small containers.

Application rates

	Rate	
Potting mixes		
General	0.75	kg / m ³
Sensitive plants	0.3 - 0.5	kg / m ³
Low P plants	1.0	kg / m ³
Open Ground	50 - 100	kg / ha
Protected growing (glasshouse)	0.5 - 1.0 or 0.75	kg / 100 m ² kg / m ³
