BIOTA IRON POWDER 13%

SOLID BIOTA IRON POWDER MICRONUTRIENT FERTILIZER

Biota Iron Powder is an Iron micronutrient supplement. It is organically stabilized and is a great Iron source for any crop. The product is easily soluble, very stable in solution, easily absorbable by the plant and suitable for all modern irrigation systems.

1

FREE OF SODIUM AND CLAY AND NOT AFFECTING GREENHOUSE EQUIPMENT

2

COMPATIBLE WITH MODERN IRRIGATION SYSTEMS

3

EASY NUTRIENT UPTAKE AND PREVENTS IRON CHLOROSIS

UV-Treatment affects Iron in Fe-EDDHA

UV-Treatment has no effect on Biota Iron

ANALYSIS

Organic Iron 13 % w/w
water soluble

PROPERTIES
