

AMBITIOUS QUICK START FACT SHEET KIWIFRUIT

- ➔ Ambitious has a limited label claim for control of Psa in kiwifruit.
- ➔ Reduces symptoms of Psa for up to three weeks.
- ➔ Ambitious is on the Zespri Crop Protection Programme.

ACTIVE INGREDIENTS

- ➔ Ambitious 10 SL contains 10g/L Forchlorfenuron (CPPU) in the form of a soluble concentrate. It is a plant growth regulator of the cytokinin class.

APPLICATION

- ➔ Preventative control needs to be applied 5-7 days prior to a Psa infection event.
- ➔ Apply from 2 weeks after budburst.
- ➔ No more than 2 applications, no closer than 14 days apart.
- ➔ Must not be applied any later than 7 days before any anticipated flowering occurs.
- ➔ Must only be applied to Hayward and G14.
- ➔ Can be tank mixed with Nordox.

RATES

- ➔ Recommended rate of 50-75ml per 100L.
- ➔ See label for full use instructions.
