

Easygreen™ mini 21 21-5-10 (+3MgO+6S+TE)

NPK complex fertilizer with potassium sulphate, magnesium and micronutrients (without potassium chloride). For the use on golf fairways and other extensive turf.

Technical data:

Macronutrients:		Micronutrients:
21%	nitrogen (N) 10.0% NO ₃ nitrogen 11.0% NH ₄ nitrogen	0.02% boron (B) 0.3% iron (Fe) 0.02% zinc (Zn)
5%	phosphate (P ₂ O ₅) soluble in neutral ammonium citrate, incl. 4.0% P ₂ O ₅ water soluble	
10%	potassium oxide (K ₂ O) as potassium sulphate water soluble	
3%	magnesium (MgO) 2.0% water soluble	
6%	sulphur (S) 4.8% water soluble	

Physical properties: Granular solid fertilizer, surface-treated for improved transport and storage properties.

Colour: Blue

Particle diameter: 90 % within 1.0 – 2.5 mm

Bulk density: approx. 1150 kg/m³ (+/- 100 kg/m³)

Application recommendations:

Thanks to its even, fine granulation Easygreen mini can be applied easily with spreaders or by hand. Nutrient distribution is even as every granule contains all nutrients and some micronutrients. Application is possible during the whole vegetation period.

Application Area	Rate g/m² or kg/100m²	Applications/ year
Golf fairways	20-25	2-3
other extensive turf	15-25	2

The recommended rates do not bear the risk of scorching when applied on a dry surface. Watering-in promotes the immediate effect.

Product to be used best in combination with Easygreen mini 12. Easygreen mini 12 in autumn/ winter, Easygreen mini 21 in spring/ summer.

Notice to buyer:

Careful tests have proven that the product is suitable for the recommended purposes when used in accordance with our instructions. Trial first on a small scale before rate, application or other changes in your cultural practices are implemented.

However, since storage and use are beyond our control and we are unable to foresee all circumstances arising therefrom, we are only liable for a consistent quality of the product, but the risk of its storage and use is not borne by us.

Storage:

In unopened original containers Easygreen mini can be stored for longer periods of time. Opened containers should be resealed tightly after removal of fertilizer and be stored in a dry place.
