

DIRECTIONS FOR USE

Blaukorn Premium®

Blaukorn® is a modern range of granulated fertilisers using the latest technology.

Blaukorn® Classic The "Classic"

12 N + 3.4 P + 13.3 K
+ 1.8 Mg + TE
(elemental)

Balanced NPK with a P & K bias for flowering and fruiting crops.

e.g. flowers, vegetables, fruit crops after fruit set.

Blaukorn® Suprem The "High N"

21 N + 2 P + 8.3 K
+ 1.8 Mg + TE
(elemental)

Higher N for growth when adequate P & K in soil.

e.g. turf for fruit crop in early season.

Blaukorn® Premium The "Low P"

15 N + 1.3 P + 16.6 K
+ 1.8 Mg + TE
(elemental)

When low P and higher levels of N & K are required.

e.g. high soil P or crops requiring low P.

25 kg bags

Blaukorn® is a premium quality granular complex compound fertilisers from Compo Expert. All Blaukorn® products have a high availability of phosphate and a low level of chlorine.

High availability of Phosphate

- P mostly present as water-soluble phosphate.

Low Chloride

- Safe for chloride-sensitive plants e.g. lettuce, celery and flower crops
- Less salt build-up in the soil and damage to plant roots.

Improved crop quality

- Greater nutrient availability
- Improved uptake of micronutrients
- Low salinity due to SOP and no Chloride.

Improved handling and spreading

- Mid-sized granules (2-4 mm) and low dust.

Blue-coloured granules

- Blue inside and out
- Excellent product recognition.

Crop	Rate (kg / ha)	Rate (g / m ²)
Fruit crops & vines - Nursery plants - Newly planted - Established	200 200 - 300 300 - 500	20 20 - 30 30 - 50
Ornamentals - Newly planted - Established	200 - 300 300 - 400	20 - 30 30 - 40
Vegetables - Tomatoes / potatoes - Other - Newly planted - Other - Established	300 - 500 200 - 300 300 - 400	30 - 50 20 - 30 30 - 40
Turf areas* - 3-12 months - Established	150 - 200 300 - 400	15 - 20 30 - 40

* recommend Easy Green mini prill products or Fertilis micro prill products for greens.
