

# WUXAL<sup>®</sup> Aminoplant

## Biostimulant

**Natural approach to healthier and stronger plants. Liquid Biostimulant rich in naturally occurring bioactive compounds processed from natural crude plant extracts after extraction and fractionation. For foliar and root application. Additional benefit: Functions as a spray adjuvant to pesticides.**

### Description

WUXAL Aminoplant is a highly concentrated plant extract biostimulant. The product is obtained by a particularly efficient extraction technology in order to preserve the biological activity of the active ingredients.

WUXAL Aminoplant has excellent natural sticker-spreader properties and may enhance the activity and improve the safety of herbicides and pesticides.

WUXAL Aminoplant is particularly recommended for improving seedling quality and the ability of seedlings to survive transplanting after foliar or root application.

WUXAL Aminoplant is particularly rich in vegetative amino acids

### Contents

Liquid organic NPK-fertiliser of plant origin.

| % w/w |   |  | g/l           |
|-------|---|--|---------------|
| 2.0   | N | Total Nitrogen<br>2.0% organic-N         | 22.7<br>22.7  |
| 0.8   | P | Phosphorus                               | 9.9           |
| 1.6   | K | Potassium                                | 18.8          |

### Key benefits & features

- ▶ premium quality Biostimulant
- ▶ high concentration of amino acids and bioactive compounds
- ▶ foliar and root absorption
- ▶ stimulates fruit set during stress conditions
- ▶ extraordinary rainfastness and wetting properties
- ▶ biological buffering system
- ▶ improved efficacy of pesticides and herbicides

### Physical / chemical properties

Density: 1.13 g/cm<sup>3</sup>  
pH value: 4.0  
Colour: brown
