

WUXAL[®] Ascofol

Biostimulant

Natural seaweed, fertiliser suspension rich in micronutrients and naturally occurring bioactive components.

Description

WUXAL Ascofol is a highly concentrated natural seaweed suspension extracted from the brown algae *Ascophyllum nodosum*. In order to preserve the biological activity of the active ingredients, fresh product is harvested by hand and the extract obtained by a particularly soft extraction technology.

The suspension formulation allows easy handling in comparison to powder products which are usually slowly soluble and highly hygroscopic.

WUXAL Ascofol has a stimulating effect upon plants under physiological stress in their early growth. The high micronutrient content promotes fruit set and improves skin finish.

WUXAL Ascofol is the product of choice for improving both the seedling quality as well as the ability of seedlings to survive transplanting after foliar or root application.

International experience shows that premium quality seaweed extracts derived from *Ascophyllum nodosum* like WUXAL Ascofol act by inducing plant resistance to stress related conditions.

Contents

Seaweed suspension (*Ascophyllum nodosum* marine plant extract).

% w/w			g/l
3.0	B	Boron	38.1
0.8	Mn	Manganese	10.1
0.5	Zn	Zinc	6.3

Physical / chemical properties

Density: 1.27 g/cm³
pH value: 6.0
Colour: dark brown

Key benefits & features

- ▶ premium quality seaweed suspension
- ▶ prevents micronutrient deficiency
- ▶ improves plant growth under stress conditions
- ▶ promotes crop quality
- ▶ adheres very well on the foliage
- ▶ optimum pH-value for foliar absorption.
